

Safety Data Sheet

Product Name:	Endo F3 PRIME-LY™ (<i>lyophilized recombinant produced in E. coli</i>). Only for use in Research & Development.
Composition:	After reconstitution with dH ₂ O: Solution in 1X PBS (Phosphate Buffered Saline; 137 mM NaCl, 10mM Phosphate, 2.7 mM KCl, pH7.4).
Hazard Identification:	Non-hazardous, but there is the possibility of an allergic response arising from prolonged and/or repeated exposure in sensitive individuals.
First Aid Measures:	In case of contact: <ul style="list-style-type: none">• Eyes - Irrigate with plenty of water for a minimum of 15 minutes.• Skin - Wash with soap and water.• Inhalation - Move to a well-ventilated area and clear nose and throat.• Ingestion - Drink plenty of water and seek medical attention.
	IF IN DOUBT, SEEK MEDICAL ADVICE
Firefighting Measures:	Use the appropriate methods of extinguishing which are in accordance with the surrounding fire conditions.
Accidental Release Measures:	Ensure sufficient ventilation, limit the leakage as appropriate to the situation, and remove to properly labeled containment.
Handling/Exposure Controls:	Handle in accordance with Good Laboratory Practice. Wear appropriate protective clothing (safety spectacles, gloves, laboratory coat).
Storage:	Stable at RT. Store reconstituted at temperatures ranging from 4°C to -20°C. Avoid multiple freeze-thaw cycles.
Physical & Chemical Properties:	Dry white powder
Stability and Reactivity:	Not combustible; no hazardous reactions known.
Toxicological Information:	Toxicological, carcinogenic, and mutagenic properties have not been investigated.
Ecological Information:	No information available.
Disposal Information:	No special requirements. Dispose of according to local and environmental regulations.
Transport Information:	Not available.
US Regulatory Information:	Not available.
